	Sem-2		69085		3729		14010		749	92881

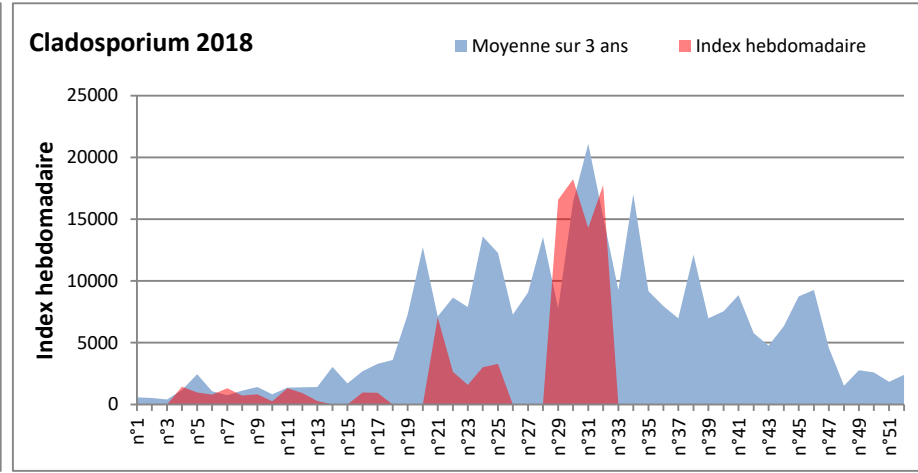

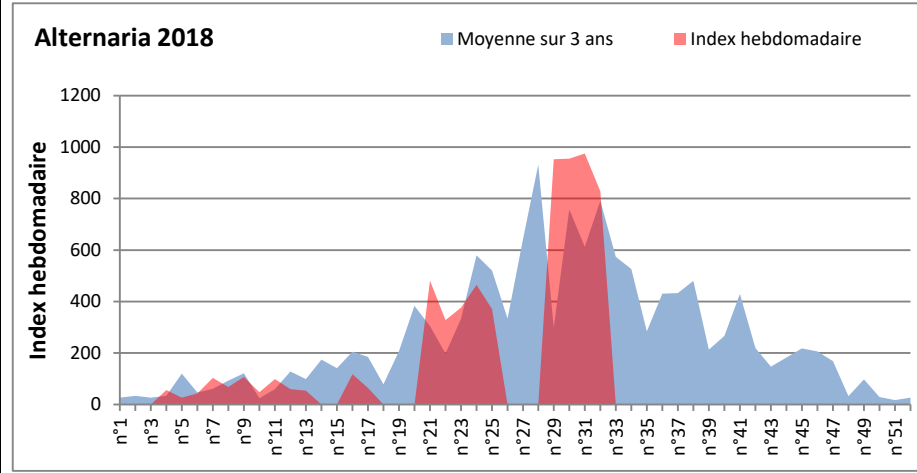

COMMENTAIRE : Les quantités de moisissures sont en augmentation sur tous les sites à cause des orages, il devrait y avoir moins de moisissures la semaine prochaine. Ce sont toujours les ascospores et les cladosporium qui sont actuellement en tête du classement, mais les spores d'Alternaria sont présents en quantité importante par rapport à leur concentration habituelle et arrivent en 2ème ou 3ème position sur presque tous les sites.
