**COMMENTAIRE :** Les ascospores et cladosporium sont en tête du classement des spores de moisissures.

Les concentrations de spores de moisissures sont en hausse partout cette semaine par rapport à la semaine dernière sauf à Nice et Lyon.

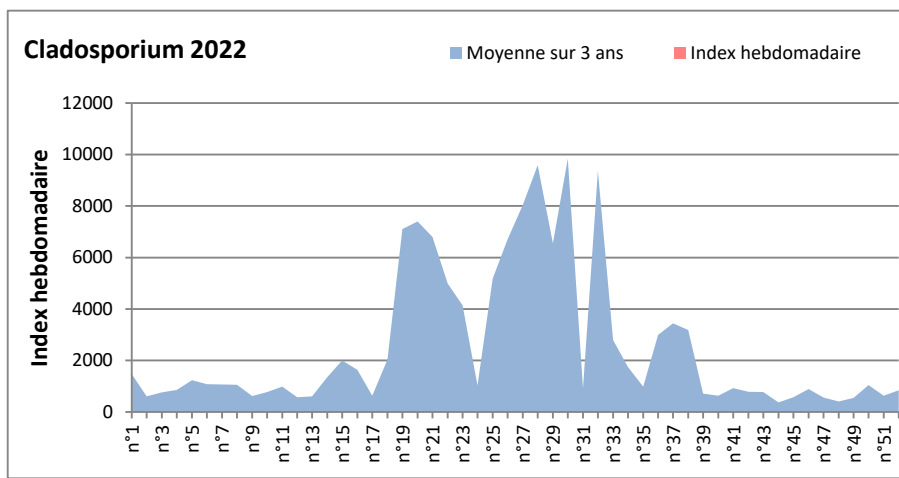

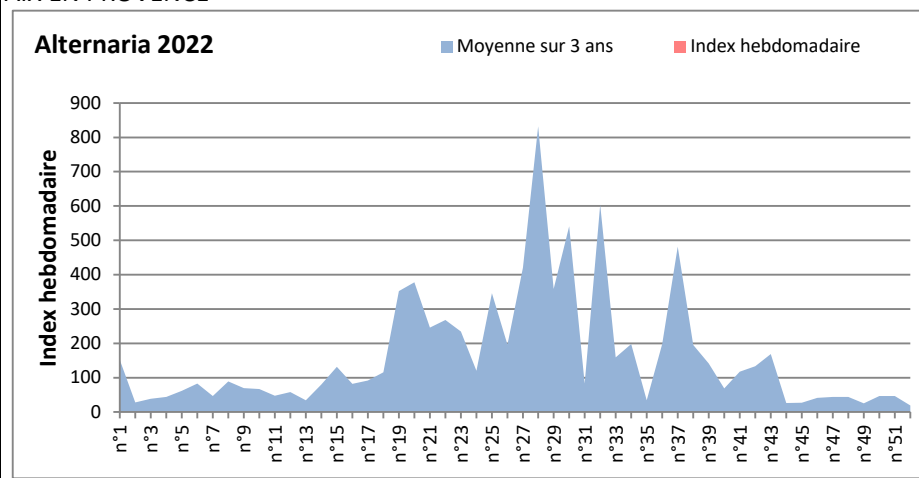

Attention aux journées plus humides et orageuses qui favoriseront l'émission des spores de moisissures.

Attention aux spores d'alternaria qui sont très allergisantes et bien présents dans l'air.
