	Sem-2		/		/		/		/	/

COMMENTAIRE : Les spores de moisissures sont en augmentation dans l'air à la faveur d'un temps plus humide et orageux.
 Les ascospores et cladosporium sont en tête du classement des moisissures de la semaine.
 Attention aux spores d'alternaria qui sont très allergisantes et bien présentes dans l'air dans plusieurs villes.
 Bon courage à tous les allergiques aux spores de moisissures.
